

TESTIMONIALS

from recent alumni of EANE's 10-Week Certification Study Course

"I'd have never been able to pass the Certification exam without the EANE class. The course equips the members with knowledgeable instructors, who not only teach but also make themselves available to answer any questions even after the course wraps up. The note cards, PowerPoints and games are a huge help. But my favorite part of all is the relationships you build with your classmates. You're all in the same boat and you lean on each other. I learned just as much from the class as I did from hearing other members questions and their thought processes on how they come up with the answers or helpful hints on how they remember things."

Alissa LaMotte, PHR

"The depth of knowledge you are required to know for the exam is very broad, but by participating in the EANE program I was able to refine my knowledge in all the testing areas and learned tips to retain the most critical information. The information review, study techniques, flash cards, online practice testing, along with the amazing instructors and my awesome HR peers in the group were all key to my passing the SPHR exam on my first try! I highly recommend the EANE HR Certification program, it was worth every penny and every moment of my time, thank you EANE."

Kelly A. Marion, MS, SPHR

"The best view comes after the hardest climb. Taking this course taught me so much about myself. The leaders at EANE are so knowledgeable and encouraged me through every class to believe in myself. The course re-iterates so much of what you do on a daily basis but it also gives a broader understanding of the ever-evolving HR world. I encourage anyone that is looking to improve your skillset and your personal confidence to experience this "kick a*%" program!

Vicky Layden, PHR

"I found the study group to be a rewarding experience which I believe was key in helping me obtain my SPHR. I was able to get real time answers to questions from experts in the field through EANE, they were able to breakdown troublesome topics as well as use real world experience to make the material relevant. The study group allowed us to share and collaborate with talented diverse professionals even after the certifying is done our group has stayed in contact so the networking opportunities continue as well as the support."

Michelle Baity, SPHR

These testimonials were shared by our Fall, 2019 study group that met in the Berkshires. Their class had a 90% pass rate!

Make 2020 your year to earn certification!
